

# Innovate Software Consulting Inc Ltd

## **e-Integrated Health Management Suite (e-IHMS), Version 1.0 Achieves Oracle Database Ready, Oracle WebLogic Ready, Oracle VM ready, Oracle Linux Ready, Oracle Solaris Ready, Oracle Exadata Ready, Oracle Exalogic Ready, Oracle Exalytics Ready, Oracle SuperCluster Ready, Oracle Database Appliance Ready & Oracle Big Data Appliance Ready Status**

The Oracle Exastack Ready program is dedicated to helping ISVs, and other Oracle PartnerNetwork (OPN) members, run their solutions on the latest major releases of Oracle Exadata Database Machine, Oracle SuperCluster, Oracle Exalogic Elastic Cloud, Oracle Exalytics In-Memory Machine, Oracle Database Appliance, Oracle Big Data Appliance and their component products, including Oracle Database, Oracle WebLogic Server, Oracle Solaris, Oracle Linux and Oracle VM. These products provide partners with a lower cost and high performance infrastructure for database and application workloads across on-premise and cloud based environments.

*“Innovation of IT Products & Services, IT Consulting & IT Reselling through Quality and Performance using Oracle Technologies”*

*Industry: “HealthCare”*

*e-Integrated Health Management Suite (e-IHMS) is supported and Ready to run with Oracle Exadata Database Machine, Oracle SuperCluster, Oracle Exalogic Elastic Cloud, Oracle Exalytics In-Memory Machine, Oracle Database Appliance, and Oracle Big Data Appliance.*

### **Company Overview**

Innovate Software Consulting Inc Ltd., founded in 2013 and registered in U.K, provides the consulting and outsourcing services that envision and pioneer the adoption of the flexible global business practices that today enable companies to operate more efficiently and produce more value. Innovate Software Consulting Inc Ltd. works with its clients globally as partners to conceptualize and realize technology driven business transformation initiatives.

Our commitment is: to enable swift, practical and meaningful transformation of critical business and IT functions and transformation that ensures your organization's success by delivering measurable and lasting improvements in performance, productivity, quality, and cost.

Innovate Software Consulting Inc Ltd., forms long-term client partnerships that enable us to better understand customer's industry landscape, operating environment, and business challenges and provide lasting value through our services.

### **e-Integrated Health Management Suite (e-IHMS) Overview**

e-Integrated Health Management Suite (e-IHMS) v1.0 is web-based Integrated Health Management Suite, designed to facilitate management of electronic health records and

medical practice. It is ONC Complete Ambulatory EHR Certified and it features fully integrated electronic health records, practice management, scheduling, electronic billing, and internationalization.

#### **Basic Features:**

- ONC Complete Ambulatory EHR Certified
- Track patient demographics
- Patient Scheduling
- Electronic Medical Records
- Prescriptions
- Medical Billing
- Clinical Decision Rules
- Patient Portal
- Reports
- Security
- Multi-Language Support

#### **Capabilities and Comprehensive Features:**

- Ability to encrypt patient documents.
- Supports fine-grained per-user access controls.
- Remotely accessible from any modern web browser with a suitable security certificate installed.
- Fully supports UTF-8 encoding.
- Supports use of multiple languages within the same clinic.
- **Patient Portal** - Reports, Labs, Medical Problems, Medications, Allergies, Appointments and Secure API that Supports Third Party Patient Portals.
- **Clinical Decision Rules** - Physician Reminders, Patient Reminders, Clinical Quality Measure Calculations, Automated Meaningful Use Measurement Calculations and Fully Customizable and Flexible.
- **Medical Billing** - Flexible system of coding including CPT, HCPCS, ICD9, ICD10 and SNOMED codes, and the ability to add others, Support for 5010 standards, Support for paper claims, Medical claim management interface, Insurance Eligibility Queries, Insurance Tracking Interface, Accounts Receivable Interface, EOB Entry Interface, Customizable to work with a clearing house for automated 835 or ERA entry and Support for electronic billing to clearing houses.
- **Prescriptions** - Online drug search, Track patient prescriptions and medications, Customizable layout including options for DEA, NPI and state license numbers, In-house pharmacy dispensary support and e-Prescribe, Fax, Print and e-Mail Prescriptions.
- **Patient Scheduling** - Supports multiple facilities, Patient appointment notification via email and sms, Compact and flexible appointment calendar, Repeating appointments, Restricted Appointments by Type, Categories for Appointment Types, and finding open Appointment Slots.
- **Patient Demographics** - Primary information (name, date of birth, sex, identification), Marital Status, Contact information of patient and patient's employer, Primary provider, HIPAA Information, Insurance coverage, Deceased Tracking, Language and ethnicity and Fully Customizable.

#### **Business Value**

Today joint customers can confidently use Innovate Software Consulting Inc Ltd's products together with engineered systems and operating systems of Oracle to enjoy improved performance and manageability. Participation of our organisation in the Oracle Exastack Ready program reflects our commitment to delivering a world-class

customer experience with a high performance, high capacity, industry leading database infrastructure. This is a key component of e-Integrated Health Management Suite (e-IHMS) product providing that experience and scaling our infrastructure capabilities as our customers' data volume, variety, and intelligence requirements rapidly expand.

### **Why Oracle?**

High level information about the partner product and how it leverages the latest features in Oracle Database 11gR2, Oracle WebLogic Server, OBIEE, Oracle Solaris 11, Oracle VM and/or Oracle Linux to run and support Oracle Exadata Database Machine, Oracle Exalogic Elastic Cloud, Oracle Exalytics In-Memory Machine, Oracle Database Appliance, Oracle Big Data Appliance and/or Oracle SuperCluster.

The Oracle Exadata Database Machine delivers extreme performance and is the ideal database platform for OLTP applications, data warehouses as well as the varied and unpredictable workloads of cloud computing. It is a complete package of servers, storage, networking, and software that is massively scalable, secure and redundant.

Oracle SuperCluster is the world's most efficient multi-purpose engineered system, delivering extreme efficiency, cost savings, and performance for consolidating mission critical applications and rapidly deploying cloud services.

Oracle Exalogic Elastic Cloud is hardware and software engineered together to provide extreme performance, reliability and scalability for Oracle, Java and other business applications, while delivering lower TCO, reduced risk, higher user productivity and one-stop support.

e-Integrated Health Management Suite (e-IHMS) v1.0 is web-based Integrated Health Management Suite, designed to facilitate management of electronic health records and medical practice. It is ONC Complete Ambulatory EHR Certified and it features fully integrated electronic health records, practice management, scheduling, electronic billing, and internationalization.

Built using industry-standard hardware, market-leading business intelligence software and in-memory database technology, Oracle Exalytics is an optimized system pre-integrated to reduce the cost and complexity of an organization's IT infrastructure, while dramatically increasing productivity and performance.

Oracle Database Appliance is a simple, reliable, and affordable package of software, server, storage, and networking that saves time and money by streamlining deployment, maintenance, and support of database workloads.

Oracle Big Data Appliance is an engineered system that delivers comprehensive and secure big data capabilities and is integrated, optimized, and tuned to shorten deployment times and reduce cost and risk.

Oracle VM 3, the latest release of Oracle's x86 server virtualization solution, is suitable for all datacenter workloads, enabling companies to move beyond server consolidation and to focus on accelerating and simplifying application deployment and management.

Oracle Solaris 11, the first cloud OS, brings the reliability, security and scalability of the #1 enterprise OS to the cloud, allowing customers to run their most demanding
